American Flour is in limited demand, and prices 6d to 1s lower; Western Canal, Philadelphia and Baltimore 19 to 20s; Ohio 19s 6d to 20s 6d; Corn is dull, and prices 1s lower; yellow 25s 6d to 26s; white 26s 6d to 27s 6d; wheat inactive; U. Trade in Manchester was less active, but the value of both goods and yarns was well supported. The English funds were slightly depressed.

A serious fire has occurred at Havre, destroying a large amount of property and three vessels on the stocks.

The committee on the permanence of the Assembly was to meet at Paris once a fortnight during the recess. The President was about to make the tour of southwest and the centre of France.

The councils of the Arondissements, which had assembled for the transaction of public business, had all, with the exception of the council of Limoges, advocated a revision of the Constitution.

M. Le Manle has been condemned and sentenced to six months' imprisonment for having cried "Down with Napoleon!" at the review of the National Guards, at Chat Liberrault.

The latest from India is a telegraphic dispatch received at London, which states that the overland mail arrived at Suez, with dates from Bombay to the 5th of July. It was reported that orders had been given for the surrender of the northern provinces of Nisean, in satisfaction of some due to the East India Company or the English Government.

The ship Commerce has been wrecked near Oden, and a portion of the crew murdered by the natives. The trade and commerce is dull.

ITALY.
Accounts from Italy state that a discovery had taken place at Venice and Verona, of a formidable conspiracy to assassinate the Emperor, and massacre all the Austrian officers. Several of the parties have been implicated and have been arrested.

SPAIN.
We learn from Madrid that the King insists on his nomination for Governor of the Palace, which, it was supposed, would lead to a ministerial crisis.

ENGLAND.
From the kingdom of Great Britain there is little news beyond a large amount of crime and accident.

Advices from the Cape of Good Hope state that the Governor is compelled to remain quiet, in the contest with the native tribes, until reinforcements arrive.

The receipts of the Exhibition had perceptibly diminished by the continuous intense heat of the weather.

The building which has been used by the House of Commons, since the fire of 1835, is now being torn down. The Commons will permanently occupy the new house on its next session.

FIRE IN CHICAGO.
Chicago, August 25.

On Saturday night at 12 o'clock a fire broke out in Boiler Room, and before the engines could be got on the ground the flames had extended so much that all efforts to extinguish them were unavailing; the buildings were enveloped in flames, and so intense was the heat that the firemen were driven from the position they had taken to save the large warehouse of H. Norton & Co., on the east. This was also soon enveloped and completely destroyed, together with several temporary buildings adjoining, used for storing flour, merchandise, machinery, &c., in two houses, Haddock's and Morton's, and all the buildings up to the Michigan Central Railroad Depot, were burned, the latter one only being saved by the continued exertions of the whole fire department. The fire also communicated to the wooden building on the corner of River and North Water streets, south-east of Haddock's warehouse, and together with 8 or 10 others adjoining the depot were burned.

DESTRUCTIVE FIRE.
Concord, (N. H.) August 26.

The paint shop adjoining the Eagle hotel was set on fire last night, and a large number of buildings in the best portion of the town destroyed, including the new Exchange, the Eagle hotel, and numerous stores and dwellings, and also three newspaper offices; the loss is estimated at \$125,000, mostly insured. A colored man named Robinson was arrested on suspicion of setting the shop on fire.

CUBAN NEWS.
Philadelphia, August 28.

The friends of the Cuban patriots held a large meeting last night at Baltimore, and another at Jersey City. The meeting called at Washington was so slimly attended that no organization was effected.

It is reported to-day, on the authority of a dispatch from New Orleans, that the Spanish Consul had been killed, but there is great doubt as to the truth of the report. He was burned in effigy on the night of the 23d. On the 22d the brig Fairy, from Havana, arrived at New Orleans, bringing the bodies of Col. Crittenden, Capt. Kerr and Lieut. Brandt.

Cuba Meeting in Cincinnati.
Cincinnati, August 29.

Last evening there was a very large meeting assembled on Fifth street. Speeches were made, and resolutions adopted, denouncing the "Spanish tyrants" at Havana, but at the same time condemning mob law in our own territory.

Cuban Meeting in Philadelphia.
Philadelphia, Aug. 26.

There was a large mass meeting in Independence square. Not less than twelve thousand were present.

Col. John Swift, Gen. Cadwallader and others spoke in strong condemnation of the proceedings at Havana.

Mr. Cadwallader offered a lengthy series of resolutions, justifying the cause of the patriots, and urging the interference of the American Government to prevent the occurrence of similar barbarities, and strongly recommended the purchase of Cuba from Spain.

From Washington.

The U. S. Revenue Cutter Forward, Capt. Jones has been ordered to cruise off the coast to intercept any expedition which may be fitting out with hostile intentions upon Cuba. Gov. Fletcher Minister to Mexico, goes out in the Forward to Vera Cruz, via Havana. Secretary Stewart has returned to his official duties.

The Government has decided that they are unable to prevent the emigration to Cuba.

SPECIAL NOTICES.

WE hear many people complaining of weakness, general debility, &c., which is without doubt the result of too close confinement and application. A daily ride of a few miles, on horseback, will be the standing prescription of a judicious physician in such a case, and we are sure that it would be beneficial. But many are too idle to take the command, or are ignorant of horseback riding. To such we recommend the use of Dr. Hoodland's German Bitters, prepared by C. M. Jackson, Philadelphia; and to those who can ride we would say use it.

"A THING OF BEAUTY IS A JOY FOREVER!"—Why will people deride pimple on the "human face divine," or eruptions of any kind, when it is a fact so well known, that Dr. Guyot's Yellow Dock and Sarsaparilla cleanses the skin from all impurities, removing Pimples, Sores and Blisters, leaving the affected parts as healthy, smooth and soft as the flesh of a babe. It is really priceless to all who wish the rosy hue of childhood. It causes all sores and poisonous wounds to discharge all infected matter, and it eradicates every impurity from the system. It does its work mildly, but effectively, giving countenance beauty and blooming health, in the place of ugliness and anti-septic disease. See the advertisement in another column.
